PROFILE

Dedicated Computer Science undergraduate building full-stack web and IoT applications with Java (Spring Boot), React, and PostgreSQL. Experienced in developing scalable back-end architectures, real-time data monitoring systems, and responsive front-end interfaces. Passionate about translating complex requirements into clean, maintainable code and eager to contribute to high-impact software engineering teams.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C++, HTML5, CSS3

Back-End/Databases: Spring Boot, MySQL, PostgreSQL

Front-End Frameworks: React, Next.js, Flutter

Core Concepts: OOP (Object-Oriented Programming), DSA (Data Structures & Algorithms)

Soft Skills: Team Management, Problem Solving, Team Work, Adaptability

Other Skills: Git / GitHub, Postman, Figma, Microsoft Office (Word, Excel, PowerPoint)

EDUCATION

BSc (Hons) in Computer Science | Sep 2024 – Present Informatics Institute of Technology (Affiliated with University of Westminster)

Level 04 (Average: 76.8%):

- Computer System Fundamentals (97%) , Mathematics for Computing (88%) , Software Development II (Java: 83%) , Software Development I (Python: 78%) , Web Design & Development (65%) , Trends in Computer Science (50%).

Level 05:

- Database Systems (87%) , Object-Oriented Programming (78%). (Currently undertaking: Software Development Group Project, Machine Learning and Data Mining, Algorithms, and Client Server Architecture).

Primary & Secondary Education | Jan 2010 – Dec 2023 Hindu College, Rathmalana

- G.C.E. Advanced Level (Physical Science): Achieved strong passes including Combined Mathematics and Physics (2 C, 1S).
- G.C.E. Ordinary Level: 1 A (Mathematics), 7 C, 1 S total.

PROJECTS

Airea - Smart Respiratory Monitor for Early Lung Cancer (Ongoing) | SDGP Team Project|

Tech Stack: C++ (ESP32), Flutter, SpringBoot (Backend), Supabase, FCM

- Engineered an end-to-end IoT health monitoring platform featuring ESP32 wearables for vital tracking, a Spring Boot backend for robust data processing and analysis, and a Flutter app utilizing Supabase for secure storage and FCM for real-time patient alerts.

SpendWise – Distributed Full-Stack Expense Tracker | Solo Project |

Tech Stack: Java (Spring Boot), React.js, PostgreSQL, REST APIs

- Developed and deployed a scalable, decoupled 3-tier personal finance application using Spring Boot for robust RESTful APIs and React for real-time frontend interaction.

Black Olives – Premium Apple Retail Platform | Solo Project |

Tech Stack: Next.js

- Engineered a high-performance e-commerce application utilizing Next.js server-side rendering (SSR) to optimize SEO visibility and deliver a responsive, luxury single-page application experience.

Traffic Data Analyst – Python-Based Visualization Tool | Solo Project |

Tech Stack: Python, Tkinter, Pandas, Data Visualization

- Developed a standalone Python Tkinter GUI application for the efficient retrieval, processing, and histogram visualization of summarized traffic junction data.

Eco Pulse – Sustainable Development Web Platform | Team

Lead | Tech Stack: HTML5, CSS3, Vanilla JavaScript, Figma

- Directed a 4-member team to architect a framework-free, responsive web platform advocating for UN SDG 13, demonstrating deep mastery of core web technologies and W3C standards.

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

Hackathon Finalist:

- Successfully reached the final stages of the CodeRally 6.0 and Xtreme 19.0 Hackathons, focusing on rapid development and collaborative problem-solving under pressure.

Competitor:

- Participated in the Hult Prize competition and SLIIT MATHFEST 2023.

Professional Memberships:

- Member of IEEE at the Informatics Institute of Technology (2024 – Present).

Leadership:

- Served as a Prefect (2019–2022) and Event Coordinator at Hindu College, Rathmalana.

CERTIFICATIONS

- Typescript for JavaScript Developers (LinkedIn Learning, 2025)
- Critical Thinking and Problem Solving (LinkedIn Learning, 2024)
- React Essential Training (LinkedIn Learning, 2025)
- Python GUI Development with Tkinter (LinkedIn Learning, 2024)
- Learning Python (LinkedIn Learning, 2024)
